

4 Courses

Introduction to CAD, CAM, and Practical CNC Machining

3-Axis Machining with Autodesk Fusion 360

Creating Toolpaths for a CNC Lathe

Multi-Axis CNC Toolpaths

Jul 11, 2021

Vuong V. Trinh

has successfully completed the online, non-credit Specialization

Autodesk CAD/CAM for Manufacturing

Through this specialization, learners were introduced to the latest technology trends across the manufacturing industry, including computer-aided design (CAD) and computer-aided manufacturing (CAM). Learners explored the manufacturing process in depth, and completed hands-on projects for practice of important skills, including CAD, CAM, and toolpath creation. Learners demonstrated creative confidence and practiced job ready CAD and CAM skills in order to become competent users of Autodesk® Fusion 360™ in a digital manufacturing environment.

and the

Andrew Anagnost President and Chief Executive Officer of Autodesk, Inc.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
